CAPPED SLATTED COMPOSITE CLADDING

Upgrade your space with our innovative capped composite wall cladding. This advanced material features a tough plastic shield that completely encases a WPC core, offering unmatched protection against harsh weather, stains, and fading. Experience the timeless beauty of wood, without the maintenance hassles – a simple washdown keeps it looking pristine for years to come.

INSTALLATION GUIDE

Classic WPC Wall panle of beautiful times in memory

1,High-quality raw materials are mixed and granulated

2,Each model corresponds to at least one set of molds

3,The extruder extrudes the raw material into profiles using a mold

4,The extruded profiles must be neatly bundled and cooled.

Control the production quality of each process according to quality standards

5,Various surface treatments after cooling the extruded profiles

6,Precision cutting of WPC profiles according to requirements

7,Perform woodworking tasks such as drilling, bending, and shaping.

8,Packaged according to order requirements

Loading completed and waiting to arrive in your hands!
